Jatbula Trail

Safety & Emergency
Notify a reliable person of your intended start and finish dates.
Emergency Call Devices (ECDs) are located along the trail at various locations. ECDs are only for contacting a Ranger in an emergency.

Trail Conditions
There is no formed path and trail conditions vary from rocky with creek crossings, to flat sections with swampy areas.
The Trail is marked by blue triangles, usually located every 20–50 metres. Intersections are marked by sign posts. At times the markers may be difficult to find - if you have walked for five minutes without seeing a blue triangle marker, go back to the last marker and find the next marker. Be aware that worn paths through the bush may be animal tracks rather than the Trail.
Permanent creeks at Biddlecombe Cascades, Crystal Falls, 17 Mile Falls and the Edith River usually have adequate water. As there is some distance between each of these creeks you will need to carry and drink water between them. Carry three litres of water per person between refill sites.

Climate
The Jatbula Trail lies within a region with distinct wet and dry seasons. Officially the dry season is from May to October and the wet season from November to April. However, October to December is a very hot and humid time known as ‘The Build-up’ where daytime temperatures can still reach 40°C.

Walking in ‘the Wet’
Access on the Trail varies according to seasonal conditions and management practices. For enquiries about walking the Trail between 1 October and 31 May please contact jatbula.trail@nt.gov.au

Camping along the Jatbula Trail
All campsites along the Jatbula trail are near permanent water.
The trekking waters of Biddlecombe Cascades reward walkers with swimming pools to sit in and cool off. The nearby campground is nice and flat, toilets are provided.

Crystal Creek above Crystal Falls is wide and deep. It’s a great place to swim and explore upstream. Toilets provided. Be aware the river crossing here can be challenging.

17 Mile Falls campground sits high above 17 Mile Creek. Toilets provided. Get to camp early so you have time to enjoy swimming and rockhopping up the creek.

Edith River Crossing marks the start of your journey along the riverine corridor of the Edith River. A good spot for a rest and a swim.

Sandy Camp Pool on the Edith River lives up to its name with the softest sandy campsite beside a nice big swimming hole. Take care when crossing the creek here, often very slippery. Toilet provided.

Overlooking Sweetwater Pool is the last campsite and swimming hole before you join the Leliyn loop walkers. Toilet provided.

Please Note
• Camping is only permitted for one night at each site along the Jatbula Trail.
• As each campsite allows for 15 hikers, it is not possible to skip a site to complete the trail in less time.
• Edith Falls is not a campsite on the Jatbula Trail. Separate camp fees apply.

As you can see on this Jawoyn calendar, Jawoyn people recognise five seasons. The best time for walking is the cold weather season of Malapbarr.

You can fill up your drink bottles from creeks with permanent water, but you will need to carry and drink water between these creeks. Please treat creek water by filtering, boiling or through the use of purifying tablets.
