Margaret River SMALL FAMILY WINERY TRAIL

Welcome to Margaret River's Small Family Winery Trail

We are a collaboration of six small family wineries sharing similar values and philosophies, producing single site wines reflective of the land we love. On your journey you will have the rare opportunity to meet many of the families involved and uncover the hidden gems of the Margaret River region.

We all have our own vineyard and use only these grapes to produce our wines, going one step further and processing at least our red wines on our own properties, giving us complete control over the production process. We are true grape to bottle producers with family members working across all aspects of the business. The passion that we have for our land and what we produce from it shines in our bespoke, highly acclaimed wines.

We look forward to meeting you and sharing our stories.

Sending wine home

As most of the wines you will discover along this trail have very limited availability, all cellar doors will provide consolidated shipping both domestically and internationally. Collect your wines as you go and send them as one shipment at the last cellar door you visit along the trail.

About the Margaret River Wine Region

One of the most isolated wine regions in the world, the Margaret River region has built a solid International reputation for its wines and is regarded as the jewel in the crown of Australian wine regions. In the short space of only 50 years the region has established itself as a world class producer of fine wines, capable of producing Cabernet Sauvignon and Chardonnay to rival the world's best. Margaret River as a region accounts for only 3% of Australia's grape crush but 20% of the premium wine market.
